GENERAL NOTES

1. The contractor shall be responsible for obtaining all necessary permits and approvals from the relevant authorities.

2. The contractor shall ensure that all work is carried out in accordance with the specifications and standards set out in the contract documents.

3. The contractor shall maintain a safe and secure site at all times and shall be responsible for any accidents or incidents that may occur.

4. The contractor shall provide regular progress reports to the client and shall be responsible for any delays or cost overruns.

5. The contractor shall ensure that all materials and equipment used are of high quality and meet the required standards.

6. The contractor shall be responsible for the disposal of any waste or debris generated during the construction process.

7. The contractor shall ensure that all work is completed within the agreed time frame and budget.

8. The contractor shall be responsible for the maintenance and repair of any existing infrastructure that may be affected by the construction work.

9. The contractor shall ensure that all work is carried out in a professional and ethical manner.

10. The contractor shall be responsible for the overall quality and safety of the construction project.
